

# Learn. Discuss. Practice.

## SK EMERGENCY MEDICINE

## Provincial EM Virtual Journal Club

**Target Audience:** Emergency healthcare professionals both urban and rural, residents, medical students and all other interprofessional healthcare providers practicing emergency medicine.

**Learning Objectives:** *By the end of this session, learners will be able to:*

- Apply knowledge from the ARREST trial to propose improvements in pre-hospital and hospital care for cardiac arrest patients in their own communities.
- Identify if mild hypercapnia or normocapnia is more beneficial for patients neurological outcome in cardiac arrest situations.

**Dr. Emilie Wellman (Resident) with Dr. Hein Lamprecht (Faculty)**

**Expedited transfer to a cardiac arrest centre for non-ST-elevation out-of-hospital cardiac arrest (ARREST): a UK prospective, multicentre, parallel, randomised clinical trial.**
